

Student Name _____ HS Grad Year _____

**Floyd Central High School
Indiana College Core (ICC)
Ivy Tech Community College***

Ivy Tech Community College and Floyd Central High School have partnered together to offer the Indiana College Core.

The ICC is a block of 30 credit hours of general education that transfers seamlessly to all public Indiana colleges and some private institutions.

When at least 1 course from each of the (6) categories is completed and 30 credit hours are accumulated with an overall ICC grade point average (GPA) no lower than 2.0, then the ICC requirements have been met.

*This is an example of one high school’s course offerings to fulfil the ICC. Your high school’s courses and primary postsecondary partner may be different than Floyd Central High School’s.

AP Exam Scores and Planned AP Exams	Other ICC Courses not on this Course Guide
